## Fastings too Much Trouble?

One of the challenges of clean eating (or eating well) is you may suffer even more than others when you fall off the wagon which is what can happen for only a few days during the holidays. The result is you can tell. A quick two day fast can help you recover. Some say that fasting is the fastest way to recover from overindulgence as well as many maladies.

The 2 day fast is best done on a weekend when you can relax and maybe have nice walks. Fasting for 2-days will kickstart your immune system to help with just about anything that may be going on..

Start on a Friday evening after a very light meal such as a salad.

If you drink coffee or tea then don't stop these as you may have worse withdrawal symptoms. Only drink black coffee or tea (3-4 cups over the day is fine). Drink 6 x 16 oz. glasses of water over the day with a 1/3rd teaspoon of sodium bicarbonate in each glass. Do this during and after the fast.

When you stop the fast follow a light food plan, lots of vegetables and salads is best, if possible.

So you think that fasting is too much trouble? It's not as much trouble as the end result of not dealing with your current health issues that can turn into a crisis later.

Fasting is just one of the many things that you can do to improve your health in the coming year.

Make a commitment now to make 2019 the year when you make healthy changes. Most chronic health issues have the potential to be solved outside of the allopathic medical paradigm if you take the time and initiative to find the expertise and the specific foods, supplements, alternative medicines etc. that work for you and your body.

We at SGMC can help you take charge of your health by providing information and incite on different therapies and products that can be implemented to make 2019 your healthiest year yet.

## VerMints®

The name VerMints comes from the Latin word "Ver". It means "true". VerMints are True Mints.

They are honest. They are clean.

They are truly the very best. VerMints are organic, gluten-free, non-GMO, nut-free, AND kosher mints. Vermint ditched all the gross, health-harming, chemically-modified stuff that you usually find in mints and made super tasty (some even say super-powered) mints from nature and nature only.

Each of the flavors is mouth-watering, breath-freshening, and taste bud-arousing. Pop one in your mouth guilt-free. It's good for you, nice to nature, and will probably help you land more kisses.\* Assuming, of course, that you're worthy of more kisses and that your moves aren't typically kiss-repellant.

We digress... VerMints mints are the best on the earth and for the earth. We stand behind that. Come in to SGMC and get in on the fun.

We are so excited to be able to offer you the great products from Quantum Nutrition Labs (QNL). QNL was founded to deliver uncompromising quality and effectiveness by providing 100% non-toxic and effective products. In fact, QNL has achieved an industry first in offering quantum state products based on quantum cellular resonance technology. QNL products are free of undesirable chemical tagalongs through the entire process, from conception to consumption: growing, harvesting, encapsulation, bottling and delivery to you.

When quantum-state nutrients, which are exquisitely well-grown and free of toxic tagalongs, are combined together, their effect is far greater than the sum of their individual benefits. This is the "Quantum Nutrition Effect."™ Quantum-state products are the result of the relentless search to find not only the best grown phytonutrients worldwide, but also those with quantum energetic properties.

Let's take a look at the awesome **Quantum Daily Multi**.

*The Quantum Daily Multi is the perfect daily nutritional formula with live-source multi-nutrients. This is an all-in-one supplement that provides broad spectrum, natural nutrition delivering a quantum shift in energy, health and vitality and is great for daily use by you and all your family members.*

*What are the RDAs for this product? Since RDAs (Recommended Daily Allowances) are based on synthetic, isolated nutrients that are recommended in relatively high amounts, it is inaccurate to compare them with a live-source, whole nutrients formula such as Quantum Daily Multi that performs so elegantly well.*

*Quantum believes that a whole nutrient formula and its entire biocompatible nutritional symphony is priceless in terms of supporting overall health. Thus attempting to measure a live-source formula on the same scale as synthetics is really meaning less.*

*So as you see if you are looking for a multi vitamin for the whole family Quantum's Daily Multi is the one to choose.*

We will share more information on all the great Quantum products that we stock in future editions of the SGMC News. Stay Tuned!
