Dr. King's

As we (KingBio) begin our 30th year of business (2019), we invite you to join us on a journey toward your best health ever. Beginning in January, we are taking an in-depth look at all the essential parts of an optimal life – and how to bring their mighty benefits into your life.

These Essentials are from my book, *The Healing Revolution: Eight Essentials to Awaken Abundant Health, Naturally*.

The principles and techniques I share have been time-tested, proven by over 40 years of implementation with my patients!

By implementing a little of all Eight Essentials into your life, your health will soar to new heights this year.

Let me share a story with you...

At a trade show some years ago, a young woman and man appeared at our booth asking to speak to me.

When I went over to introduce myself, she made no response to take and shake my extended hand. I discovered that was because she was blind. At a previous trade show, she and her husband had gotten a signed copy of my book, and he had read it to her. It changed the course of her life.

She took the Essentials to heart and incorporated them into her life. As she used all the tools I shared, despite her blindness, she became a top athlete runner, and competed internationally. They came to our booth that day to present me with a T-shirt with words from this book that had inspired her: "Desire, Believe, Become."

She trained and competed in Chile with those words always ringing in her mind, urging her on. Join us on this journey for your health. It's just as important as any international competition. It's your life – live it to the fullest.

Here's the first article to get you started: [A New Year's Message](#)

And here's the second: [The Healing Revolution: Essential #2 – Nutrition](#)

The third one will be on our website under [Health Resources / Articles](#). Or, [follow us on Facebook](#), where we'll post each one.

To learn more about the Eight Essentials, download and listen to my podcast series. You can stream or download from iTunes, SoundCloud, UK Health Radio, or iHeart Media. Listen while you drive, travel, walk, do housework, or work out.

My vision is for The Healing Revolution® to become a worldwide movement. This book can help people in community chapters or Meetup groups, step-by-step, be successful together, supporting each other in healthy relationships. Can you picture this vision with me?

The "best of your life" can be the "rest of your life." You can begin now.

Enjoy the journey! --Dr. Frank King

Over 41 Years Experience  
Expertise • Price • Selection

As mentioned in previous editions of SGMC News we are excited to be carrying the great products from Quantum Nutrition Labs (QNL). We've taken a look at the awesome Quantum Daily Multi and Quantum Vitamin D3 + K2. Let's take a look at **Quantum Melatonin Drops**. *Melatonin is a unique, complex molecule that is naturally present in virtually every cell of the body. Melatonin is considered to be the global master bioregulator of the whole body, intercoordinating many of the body's complex systems, including quality sleep • brain support • the immune system • antioxidants • cardiovascular system • neuroendocrine system • bone health. The levels of melatonin peak in one's early years, then as the body ages, the biosynthesis of melatonin begins to decline drastically.*

*PFN Technology™ (Probiotic-Fermented Nutrients) The ingredients of this quantum-state formula are fermented using a unique probiotic culture which allows rapid oral delivery with superior bioenergetic properties. Many people say they can feel the effect of this product the very first time they take it.*

*What is melatonin? Melatonin is a unique immunomodulatory compound which supports a wide range of physiological functions. It is produced by the body's pineal gland, a master gland located in the center of your brain. The secretion of melatonin is inhibited by light and stimulated by darkness. Therefore, melatonin production naturally rises at night. However, this may be compromised in individuals who have altered circadian rhythms or sleep patterns. The use of melatonin to promote restful sleep is well documented and has received substantial publicity for its ability to promote natural sleep patterns and maintain normal circadian rhythms.*

*This extraordinary hormone is one of nature's most effective antioxidants, offering unsurpassed protection against a broad range of free radicals which can cause cellular damage.*

*Are you enjoying restful nights and radiant days? If you need more help, then Quantum Melatonin is your product of choice. Experience an industry first with probiotic-fermented melatonin that promotes deep, restful, REM sleep. You and your family will feel the QNL difference!*
