[CLOSED Saturdays May thru October]

FEATURED PRODUCT

This is the column in which we remind you about a product(s) or service that we have provided for a long time that you may have forgotten about. SGMC Quarryville is the place to find all those, hard-to-find elsewhere, button cell batteries.

The P.R. Mallory Company produced the first commercial button batteries in the 1950's in order to power newfangled transistorized hearing aids.

Button cell batteries are single battery cells, usually disposable primary cells. Common anode materials are zinc or lithium. Common cathode materials are manganese dioxide, silver oxide, carbon monofluoride, cupric oxide or oxygen from the air. Mercuric oxide button cells were formerly common, but are no longer available due to the toxicity and environmental effects of mercury.

We have more than 40 types of button cell batteries in stock. So it's likely that we will have the button cell battery that you need in stock to power whatever gadget or gizmo you might have.

Remember that SGMC Quarryville is your source for all of your **BUTTON CELL** Batteries.

A USB Power Solution

Every day more and more things seem to be powered via a 5V USB port. Besides all the cables that we normally carry to power cell phones and the like, along with the USB AC power block and DC USB adapters, we recently brought in this USB specialty power cable adapter that solves a lot of problems.

This multi-purpose cable provides a USB interface to a DC power cable with 8 interchangeable plug connectors, which allows it to most tools and appliances that need or use USB power.

With this USB power solution you do not have to worry about finding the suitable adapters when using various devices.

This power solution offers a high quality USB to DC 5.5/2.1mm jack with a charging cable made of durable material with cable performance that is good when connecting different equipment, effectively preventing over-voltage or over-current.

You will get extensive compatibility with this universal USB to DC charging cable which is compatible with routers, smartphones, speakers, IP-cameras, security equipment, LED lights, digital audio-visual, razors, mini fans, small appliances and most types of home electronics. Please make sure you know the voltage and polarity of the device you are trying to power. Don't forget to shop SGMC for all of your USB related cables and accessories.

WHAT'S NEW

Craft Bond® Enhanced Safety Mini Dual Temp Glue Gun

Elmer's Craft Bond Dual Temp Mini Glue Gun (20 Watts) is one of several electric glue guns that we carry and is a quality tool that provides you with a safer way of gluing! Added safety features include an insulated nozzle for safeguard against burns, a safety fuse that shuts the gun off in an event of a short, and built-in side lifts allow for the tool to rest safely on its side preventing glue backup. This dual temperature glue gun is for bonding. Use the high temp setting to bond materials such as wood, plastic and metals and the low temp for more delicate materials such as silk flowers and foam. The ergonomic design ensures comfort while gluing and the durable flip-down stand provides stability while not in use. The manufacturer provides a 2 Year Warranty.

Don't forget that we also carry the hot glue sticks that you need for whatever hot glue gun you have.

If you need brushes SGMC has oodles of them. For instance use this set of brushes with oils, acrylics, tempera, watercolors and model paints. The brushes are made of natural bristles and includes 4 each of sizes 1, 3 and 5. A great value!

The NEW Flipo 3-in-1 Roadside Flare Kit is everything you need for roadside emergencies in one compact storage case. The 3-in-1 emergency kit includes: 2 multi-use LED flares that feature 3 light modes: flashlight, red emergency flare, and SOS emergency strobe. Stand these flares upright on their own using the detachable magnetic base or use the ultra-strong magnet located at the end of each flare to attach to most magnetic surfaces. The LED Roadside Flare Kit is a must-have for cars, trucks, motorcycles, boats, and more!

- 2 Multi-Use LED Flares
- 2 Detachable Magnetic Bases
- 3 Light Modes: Flashlight, Red Emergency Flare, and SOS Emergency Strobe.
- Reflective Body
- Durable Carrying Case
- Requires 6 AAA batteries (not included).

Dimensions are as follows – Carrying Case: 8.5" X 5.25" X 2" LED Flares: 7" X 1" (Without Magnetic Base.) 8" Tall (With Magnetic Base). Makes a great gift for a new driver or someone who is an experienced driver. Only available at SGMC Quarryville.

Did you know that SGMC Quarryville is an **Official UPS Shipper**. That means we can pack and ship your items and you can also drop off prepaid merchandise returns for **FREE**

assuming that they are in a properly sealed box or envelope with a UPS bar code return label attached securely to the package ready to ship. A small fee applies for taping, printing and attaching labels. You might be wondering what to do if you have a QR code which is what Amazon and some other merchants supply by default. We are sorry to say that SGMC is not allowed to process QR code returns but any Amazon QR code return (and most other merchants as well) can easily be turned into a standard drop off label.

In the case of Amazon simply cancel your return through your Amazon account and redo the return choosing the **UPS Drop-Off** option instead of the UPS Store option. It is important to understand that from now on **ALWAYS** choose the **UPS Drop-Off** option for your returns.

For this option you will need a printer to print your label. If you don't have a printer just forward your label to us to print for you. Send your label to our e-mail at phil@solanco.com and if you can put UPS Return Label in the Subject line along with your name that would help too! Why run all over the place when you can easily and conveniently drop your packages at SGMC.

Custom Picture Framing Challenge

As with most years we have always encouraged you to bring any Custom Picture Framing to us early so that we can be sure to have it for the BIG day.

This year it's more important than ever. The Custom Picture Framing industry is not immune to the shortages and long waiting times for specific mats and frames.

This is not to say that we don't have our normal outstanding selection of mats and frames, it's only to say that we are running into a few items that are taking longer and in some cases considerably longer than usual to get.

In some cases we are suggesting that you make a second choice when it comes to a mat or frame just in case your first choice may not be available.

All this is to say that this year particularly is NOT the year to wait until the last minute to bring in your Custom Picture Framing. **DON'T WAIT – BRING IT IN TODAY!**

It's Your Health

NEWS YOU CAN USE

The Impressive Health Benefits of Chlorella? by QNL Staff, July 14, 2021

A type of single-celled, emerald green algae, chlorella, has been receiving a lot of attention for its promising health benefits. And rightfully so! This nutrient-dense algae has been shown to improve cholesterol levels and assist in the natural detoxification process of the body. What is Chlorella?

Chlorella is a freshwater algae that has over 30 different species. Although two types, Chlorella vulgaris and Chlorella pyrenoidosa are commonly researched, another type, Chlorella sorokiniana, is receiving a lot of scientific attention also. Chlorella has a hard cell wall that humans cannot naturally digest. However, the chlorella's cellular walls can be broken using a special, chemical-free process where it is centrifuged. This then yields a highly absorbable dark green powder. Be sure to read the label of the chlorella to be sure the chlorella has undergone this process.

Commonly referred to as a "superfood," chlorella has a beneficial nutritional profile. Here are just a few of the benefits of chlorella:

Impressive Nutrients –

Chlorella packs a punch when it comes to nutrition, with a high protein content, a high iron and vitamin C content, and a wide range of antioxidants. Chlorella contains small amounts of other vitamins and minerals.

Detoxification Superstar - Although your body naturally attempts to detoxify itself, it may need more nutrients to do a good job. Chlorella can help bind heavy metals in the body, aiding this natural detoxification process.

Immune Support – When your immune system is under attack, nutrient-rich chlorella might help strengthen your immune system and help your body produce virus-fighting antibodies.

Improved Cholesterol - Chlorella supplements have shown to help lower both total and LDL cholesterol blood levels.

Blood Pressure Support – Taking chlorella can help improve the health of your heart and kidneys, both of which are essential to maintain normal blood pressure.

Amped Up Respiratory Health – Respiratory diseases such as chronic obstructive pulmonary disease (COPD) and asthma require controlling inflammation in the lungs. The antioxidants and other nutritious components found in chlorella might help to reduce this inflammation, aiding in improving overall respiratory health.

Aerobic Endurance – Chlorella also contains branched-chain amino acids, which have been found to improve aerobic performance in some studies. Taking chlorella may also help improve oxygen saturation in the lungs during exercise, definitely a boost for aerobic endurance.

As you can see, this amazing green powder packs a huge punch of nutrients and antioxidants, benefiting many areas of the body. Ongoing research might reveal even more specific benefits of chlorella in the future. If you're looking for a dynamic supplement to help support your best health and wellness, choose chlorella, a mighty powerhouse of nutrients!

Digital Battery Tester

With all the things that we use today that takes a battery to operate like riding mowers, kids battery powered riding toys, golf carts, four wheelers, motorcycles, cars and more. It makes sense to know if your battery is operating to its full potential.

The Flipo FP208 12V battery tester from SGMC is able to effectively analyze and read important data such as voltage, internal resistance, cold-cranking, battery health, and charge status.

This car battery diagnostic tester is great for the beginner or expert and can be used with a wide selection of 12V, 100-2000CCA regular flooded batteries, AGM flat plate, AGM Spiral, and well as GEL batteries

This battery tester has the following features:

- 12V Battery Tester with Cranking and Charging System, load and Alternator Test
- Fast and Accurate Results
- Multiple Ways to test inside or Outside the Vehicle
- Test Multiple Types of Batteries: 100 - 2000CCA
- Great for Cars, Boats, Trucks, Motorcycles & ATVs.
- Easy to Operate with Light-Up LCS screen
- Item dimensions: 3.6" x 1.1" x 5.9"
- Item Weight: 0.50LB

This makes a great gifts for the car buff or wannabe car buff.

PREMIER RESEARCH LABS

SGMC is excited to be offering you the exceptional professional

products from Premier Nutrition Labs (PRL), the world leader in cellular resonant formulations. In this issue we will be taking an in depth look at PRL's exceptional products including why you should be considering them exclusively to improve your health and longevity.

Asta Complete-FX™ is a unique formula that features a selected range of valued botanicals including natural algae-sourced astaxanthin, a potent, lipid soluble carotenoid antioxidant that helps neutralize free radicals.

Astaxanthin accumulates in the membrane of the cell and the mitochondria where it can provide key antioxidant support for the cell and its components. Astaxanthin has the highly beneficial and unique property that it can quench free radicals by accepting or donating electrons without itself being destroyed or becoming a pro-oxidant. Astaxanthin delivers a wide range of benefits: it supports the health of the cardiovascular system, the eyes and skin, and is able to cross the blood-brain barrier to provide further support from oxidative stress.

This comprehensive formula also includes Asta-Active Blend, a botanical support blend composed of high value herbal agents that offers a complex phytonutrient profile for added nutritional support.

Be sure to check out all the great professional quality products from Premier Research Labs only at SGMC.
